Revision: Multiplication and division

1 There are 27 boys and 19 girls in a Grade 6 class. They want to raise money to buy mathematical games for their class. They have decided to collect glass bottles for recycling and sell them. Each learner must collect 189 bottles.

a How many bottles do the girls have to collect?

b How many bottles does the whole class have to collect?

c After they had bought the games, there was money left over. The class decided to buy sweets for the Grade 1 learners. They bought 408 sweets and shared them equally among 34 learners. How many sweets did each learner get?

d Check your answer to question **1c** using the inverse rule.

2 Calculate the products of:

a 155 and 22

b 267 and 35

c 348 and 93

d 216 and 38

Revision

1 Complete the number chain.

138 751 + 11 → ☐ + 11 → ☐ + 11 → ☐ → + 11 ☐

☐ ← + 11 ☐ ← + 11 ☐ ↓ + 11

2 Look at the clock faces below and answer the questions.

A 
B 
C 
D 
E 
a Write the 24-hour digital time that is displayed on each of the clock faces.

A _____:_____ B _____:_____ C _____:_____ D _____:_____ E _____:_____

b Write the name of the angle shown on each clock.

A: _____ B: _____ C: _____ D: _____ E: _____

3 874 more than a certain number is 25 less than 2 007. What is the number?

_____

4 Decrease the amounts of 4 500 and 5 400 by 1 000. What are your answers?

_____

5 I have the following: 3 hundred thousand; six hundred; 70; forty thousand; one. Write the number.

_____

6 Draw hands on each clock to show the following angles.

A: acute angle 
B: right angle 
C: obtuse angle 
D: straight angle 
E: reflex angle
